

# GCTX® Tablet Roll Stand

Today's solution for tomorrow's telehealth needs

- Equipped with a fixed or variable height tablet arm for optimal viewing and access for video conferencing, electronic medical records, and patient services from anywhere within a hospital setting.
- From translation apps and online patient registrations to virtual rounding and telemedicine, our GCTX® Tablet Roll Stand allows time-pressed nurses, clinicians, and physicians to meet with patients and specialists no matter their location.
- Optional accessories such as speaker mounts and bins for additional storage.

*Note: Tablet enclosure sold separately. Tablet not provided.*

## FEATURES AND BENEFITS

**Optional PRO-ADJUST™ tablet arm** allows the user to reposition the tablet while remaining firmly secured to the roll stand, reducing the risks of accidental drops or removals.

**Power box** to secure an AC adapter or USB hub along the channel to prevent accidental or intentional unplugging.

**Stable, 18"-by-18" base** and four-inch locking casters seamlessly move the roll stand in and out of a room or viewing area with ease.

**Up to 100% of the cables** are concealed for better infection control.

## ON-SITE SERVICES

- GCTX On-Site Services (OSS) is a seamless, cost-effective and expert service for deploying and maintaining GCTX® products.
- Click [here](#) for more information on GCTX® On-Site Services.

**Are you ready to roll? Then contact us to learn how the GCTX® Tablet Roll Stand can improve your provider and patient experiences to remaining competitive.**
