CUSTOM MOUNTING SOLUTIONS

GCX has been providing mounting solutions to medical device manufacturers for over 45 years. With our extensive resources and healthcare expertise, we offer a full range of design and manufacturing capabilities. Solutions include a broad array of standard products, fully custom designs, and hybrid solutions that combine standard and custom elements. Our products are thoroughly tested to the relevant safety standards (such as IEC 60601-1), and are all designed and manufactured under our ISO 13485 certified quality system.

Fixed Height Roll Stand for Light Weight Devices

Provides a secure mobile solution for portable devices up to 10 lb / 4.5 kg in weight. Accommodates a wide variety of GCX accessories.

Fixed Height Roll Stand

Provides a secure mobile solution for portable devices. Accommodates bottom and rear mounting configurations and a wide variety of GCX accessories.

Fixed Height Configurable Cart

Provides a robust, durable, configurable mobile solution for portable devices. Sleek design serves multiple purposes, and the integrated GCX channel profile accommodates a variety of mounting accessories.
