## **Installation Guide**

# Spacelabs Channel-mounted Power Supply Bracket

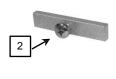

The purpose of this guide is to describe channel mounting of a typical power supply.

### Parts Reference

The following parts and hardware are included with this installation kit:

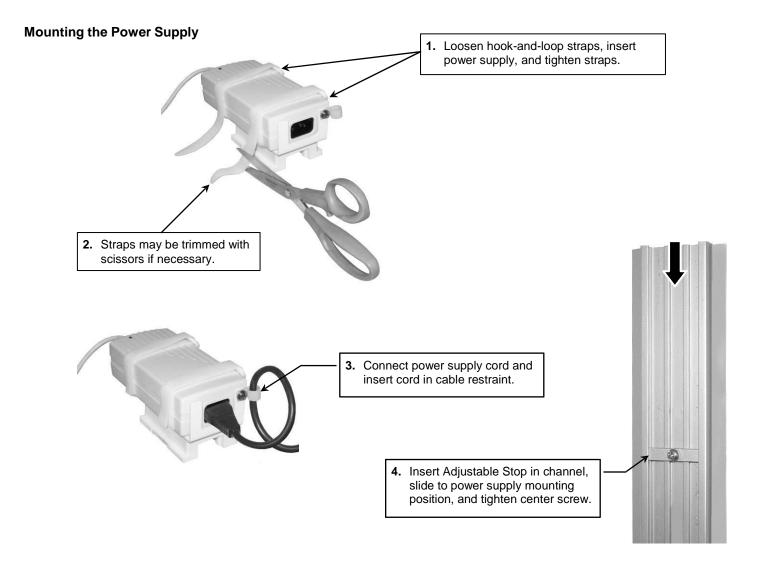

Item #	Description	Qty
1	Power Supply Bracket ( with 17" Hook & Loop Straps)	1
2	Adjustable Stop	1

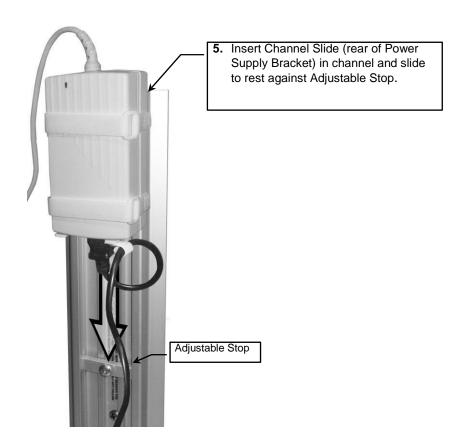

# 1

# **Tools Required**

- Phillips screwdriver (not provided)
- Scissors (not provided)

## **Routine Maintenance**

Periodically inspect all hardware associated with the mounting system. Tighten or adjust as necessary for optimal operation and safety.

## **Cleaning the Mounting Assembly**

- 1. The mounting assembly may be cleaned with most mild, non-abrasive solutions commonly used in the hospital environment (e.g. diluted bleach, ammonia, or alcohol solutions).
- 2. The surface finish will be permanently damaged by strong chemicals and solvents such as acetone and trichloroethylene.
- 3. Do not use steel wool or other abrasive material to clean the mounting assembly.
- 4. Damage caused by the use of unapproved substances or processes will not be covered by warranty. We recommend testing of any cleaning solution on a small area of the mounting assembly that is not visible to verify compatibility.
- 5. Do not submerge or allow liquids to enter the mounting assembly. Wipe any cleaning agents off immediately using a water-dampened cloth. Dry the mounting assembly thoroughly after cleaning.

**CAUTION:** GCX makes no claims regarding the efficacy of the listed chemicals or processes as a means for controlling infection. Consult your hospital's infection control officer or epidemiologist. To clean or sterilize mounted instruments or accessory equipment, refer to the specific instructions delivered with those products.
