Lilitab™ Tablet Kiosks
for Patients and Nurses

Inform, engage and comfort patients while streamlining clinical tasks

Accessible and flexible
Mount tablets on walls, desks, countertops, floor stands, roll stands and overbed tables; undock and redock tablets in one simple step.

Safe, secure and compliant
Fully enclosed cabling prevents ligatures and tripping. Available remote digital wiping* removes all patient data between patients.

Flexible docking options
Three docking options—fixed mount, key-lock docking or auto-lock docking—meet a range of functional and budget requirements.

Easy to clean and keep clean
All materials withstand regular cleaning with hospital-grade chemical disinfectants. Available UV disinfectant lamp provides additional sterilization.

Works with any tablet—now and later
Tablet cases hold all leading tablet makes and models, and adapt to new models whenever you upgrade.

One solution. So many applications.

Patient entertainment	Interpretive services	Virtual rounding
Microlearning and education	Check-in, discharge, & more	Patient portal & health data access

*For Apple iOS only. Contact your GCX representative for details.

Mounting options

Lilitab™ offers a wide range of handheld, surface mount and mobile tablet mounting solutions.

Handheld
Affordable, flexible multi-kiosk check-in solution (shown with MultiDOCK charger).

Wall
Left/right swivel, up/down tilt, portrait/landscape rotation. Charge via outlet or battery.

Counter
Available with fixed mount or 180-degree twist mount for across-the-counter sharing.

Surface
Versatile—mount on vertical (wall) or horizontal (table or counter) surface.

Flip
Flips back and forth over mount support —ideal for sharing across counter or table.

Tabletop
Fixed tablet position (no tilt) surface mount. (Works with Pro docking only.)

Picture
VESA 75 compliant. Projects 2" from wall (meets ADA circulation area requirements).

GCX Patient Engagement Overbed Table
Overbed table with PRO-ADJUST for easy patient access in bed or while seated.

GCX Tablet Roll Stand
Light, strong, stable and compact mobile tablet mount fits any patient room.

Telemedicine Cart
Cost-effective mobile tablet kiosk for telehealth or bedside applications.
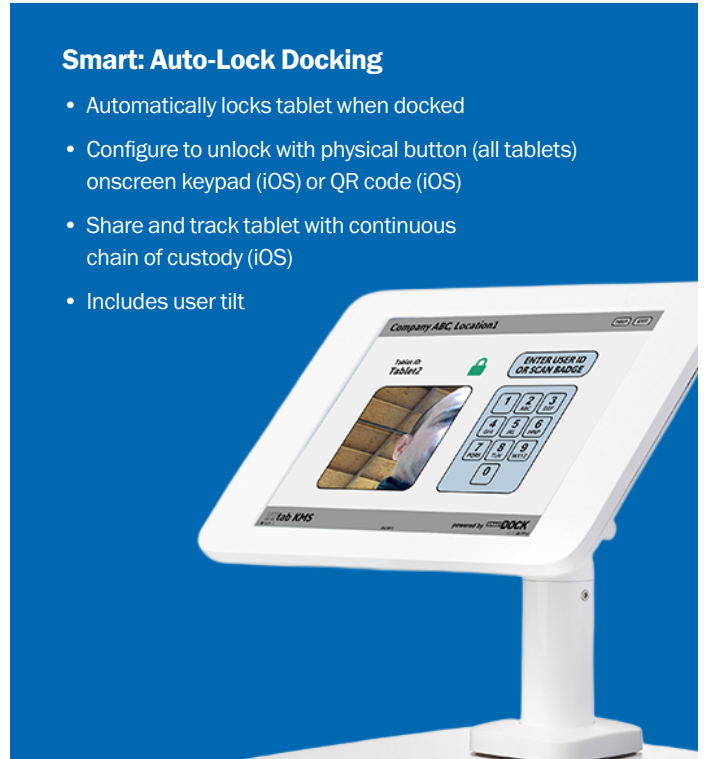

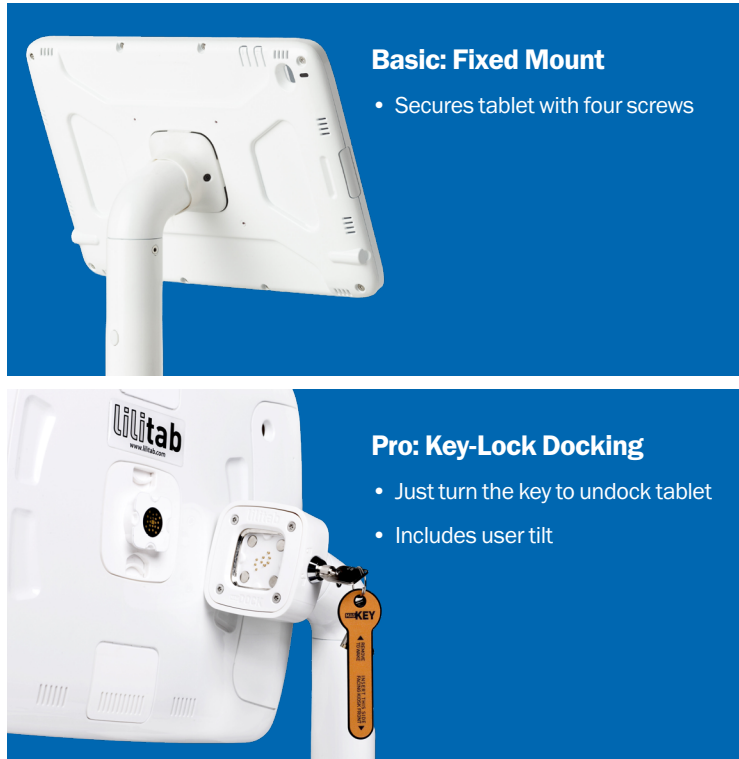

Floor Stand
Standing height. Bolt to the floor or choose sliding or wheeled based for easy mobility.

Docking options

Maximize security and flexibility within your budget.

Basic: Fixed Mount

- Secures tablet with four screws

Smart: Auto-Lock Docking

- Automatically locks tablet when docked
- Configure to unlock with physical button (all tablets) onscreen keypad (iOS) or QR code (iOS)
- Share and track tablet with continuous chain of custody (iOS)
- Includes user tilt

Pro: Key-Lock Docking

- Just turn the key to undock tablet
- Includes user tilt

Fast, easy undock/redock. USB accessories connected to any Lilitab™ mount (e.g. barcode scanners, keyboard, printers) automatically connect to the tablet upon docking or redocking.

Kiosk Management System (KMS)

Remotely track and manage every tablet in your hospital or hospital system

- Track by tablet, user and user group across your entire enterprise
- Monitor and tablet location, current user, charge status, dock/undock status and more
- Geofence tablets for alerts when tablets leave a specific area or property
- Upload data and custom configurations for each new patient
- Remotely wipe tablets (digital sterilization) between patients via JAMF integration
- Develop and deploy custom apps using standard web development practices (no iOS development needed)

For iOS only. Call your GCX representative for more information or a demo.

Future-proof investment

Lilitab™ tablet cases are engineered to fit the newest and late-model Apple iPad, Samsung Galaxy and Microsoft Surface tablet models. Swappable faceplates and components let you adapt easily to new tablet models whenever you change or upgrade.
