Lilitab™ Tablet Kiosks
for Patient Check-In

Check-in and registration solutions that shorten wait times, simplify workflows, scale effortlessly and save money

Use with any tablet—now, and later
Our tablet cases hold all leading tablet makes and models, and adapt to new models whenever you upgrade.

Enable self-service check-in, anywhere
Mount kiosks on walls, counters, desktops, tabletops, floor stands, roll stands or medical carts.

Customize for more capability, efficiency
Add accessories for ID and barcode scanning, document scanning, credit card payments, receipt printing and more.

Faster, simpler check-in	**Greater privacy** (no "spoken" health data)
Up to 50% reduction in wait times	**Less paperwork** and fewer errors

Choose a mounting solution

Lilitab™ offers a wide range of handheld, wall mount, surface mount, floor mount and mobile kiosk solutions. Mix and match to create the perfect check-in or registration solution for every area of your hospital or practice.

Handheld
Affordable, flexible multi-kiosk check-in solution (shown with MultiDOCK charger).

Wall
Left/right swivel, up/down tilt, portrait/ landscape rotation. Charge via outlet or battery.

Picture
Projects just 2" from the wall; meets ADA requirements for circulation areas.

Counter
Available with fixed mount or 180-degree twist mount for across-the-counter sharing.

Surface
Versatile—mount on vertical (wall) or horizontal (table or counter) surface.

Flip
Flips back and forth over mount support— ideal for sharing across counter or table.

Tabletop
Fixed tablet position (no tilt) surface mount. (Works with Pro docking only.)

Floor
Standing height. Bolt to the floor or choose sliding or wheeled based for easy mobility.

Lilitab™ kiosks are also available in black.
Custom colors and woodgrain finishes are available upon request.

Choose a dock

Three docking options meet your security, flexibility and budgetary goals.

Basic: Fixed Docking

- Secures tablet with four screws

Pro: Key-Lock Docking

- Just turn the key to undock tablet
- Includes user tilt

Smart: Auto-Lock Docking

- Automatically locks tablet when docked
- Configure to unlock with physical button (all tablets) onscreen keypad (iOS) or QR code (iOS)
- Share and track tablet with continuous chain of custody (iOS)
- Includes user tilt

Fast, easy undock/redock. USB accessories connected to any Lilitab™ mount (e.g. barcode scanners, keyboard, printers) automatically connect to the tablet upon docking or redocking.

Customize with accessories

Lilitab™ kiosks are hospital-grade

Strong and durable. Made from powder-coated steel, cast aluminum and ABS plastic.

Safe and tamperproof. All cables, connections and buttons are fully concealed.

ADA compliant. Every Lilitab™ kiosk complies with the Americans with Disabilities Act.

Easy to disinfect. Clean with any hospital-approved wipe or chemical disinfectant.

Also available:

Kiosk Management System (KMS)

- Track all kiosks, users and user groups.
- Monitor and manage remotely from any browser or from any deployed kiosk.
- Geofence tablets for alerts when tablets leave area or property

* For Apple iOS only. Ask your GCX representative for details or a demo.
