

Lilitab™ Tablet Kiosks for OEMs

Deliver fully custom, state-of-the-art tablet solutions for healthcare

Myriad off-the-shelf configurations

Choose from a wide range of mounting options, docking options and ready-made accessories.

Cost-effective custom parts

Rapid prototyping and low-cost tooling enable affordable production samples in as little as eight (8) weeks.

Custom electronics for iPad kiosks

Lilitab™ is a 'Made for iOS' manufacturer—our engineers are experts at interfacing with iPad.

Colors and finishes

Finish kiosks in almost any color, woodgrain pattern or surface finish.

Complete branding

Add logos, labels and signage to promote your client's brand, or your own.

Future-proof kiosk design

Lilitab™ tablet cases fit all current tablet models and adapt easily to upgrades.

Customizable Kiosk Management System (KMS)

Include software for deploying, monitoring and managing kiosks.

Multiple mounting solutions

Lilitab™ offers a range of handheld, surface mount and mobile tablet mounting solutions to meet the demands of virtually any healthcare tablet workflow or application.

Handheld

Affordable, flexible multi-kiosk check-in solution (shown with MultiDOCK charger).

Wall

Left/right swivel, up/down tilt, portrait/landscape rotation. Charge via outlet or battery.

Counter

Available with fixed mount or 180-degree twist mount for across-the-counter sharing.

Surface

Versatile—mount on vertical (wall) or horizontal (table or counter) surface.

Flip

Flips back and forth over mount support—ideal for sharing across counter or table.

Tabletop

Fixed tablet position (no tilt) surface mount. (Works with Pro docking only.)

Picture

VESA 75 compliant. Projects 2" from wall (meets ADA circulation area requirements).

GCX Patient Engagement Overbed Table

Overbed table with PRO-ADJUST for easy patient access in bed or while seated.

GCX Tablet Roll Stand

Light, strong, stable and compact mobile tablet mount fits any patient room.

Telemedicine Cart

Cost-effective mobile tablet kiosk for telehealth or bedside applications.

Floor Stand

Standing height. Bolt to the floor or choose sliding or wheeled based for easy mobility.

Docking options

Three docking options to meet customers' security, flexibility and budgetary goals.

Basic: Fixed Mount

- Secures tablet with four screws

Pro: Key-Lock Docking

- Just turn the key to undock tablet
- Includes user tilt

Smart: Auto-Lock Docking

- Automatically locks tablet when docked
- Configure to unlock with physical button (all tablets) onscreen keypad (iOS) or QR code (iOS)
- Share and track tablet with continuous chain of custody (iOS)
- Includes user tilt

Customize with accessories

Speed data entry, take payments and more

Keyboard shelf

Credit card scanners

Photo ID card capture

Barcode scanners

RFID scanners

Receipt printer mounts

Fast, easy undock/redock. USB accessories connected to any Lilitab™ mount (e.g. barcode scanners, keyboard, printers) automatically connect to the tablet upon docking or redocking.

Complete customization

Meet any functional, branding or environmental requirement

Branding and graphics

Print your logo or your customer's logo directly on any kiosk. Add signage for additional branding, or to provide instructions that promote engagement, ease of use and rapid adoption.

Custom colors and finishes

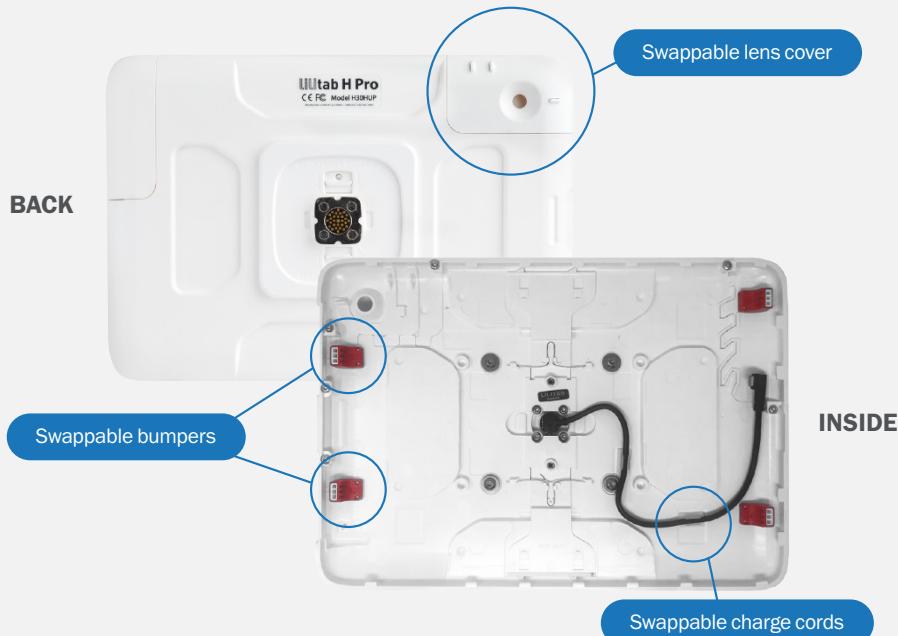

While our standard white and black finishes are well-suited to clinical and medical office environments, you can finish your Lilitab™ kiosk solution in virtually any color, design pattern, woodgrain pattern or surface finish.

Custom parts and electronics

Our rapid prototyping and low-cost tooling can turn around custom production part samples in as little as 8 weeks. As a Made for iOS manufacturer, we are experts at integrating functionality seamlessly with the iPad's electronics and user interface. And with our decades of experience designing kiosks for industry, we're ready to work with you on fully customized tablet kiosk solutions.

Offer customers a future-proof investment

Lilitab™ tablet cases are engineered to fit the newest and late-model Apple iPad, Samsung Galaxy and Microsoft Surface tablet models. Swappable faceplates and components let customers adapt easily to new tablet models whenever they change or upgrade.

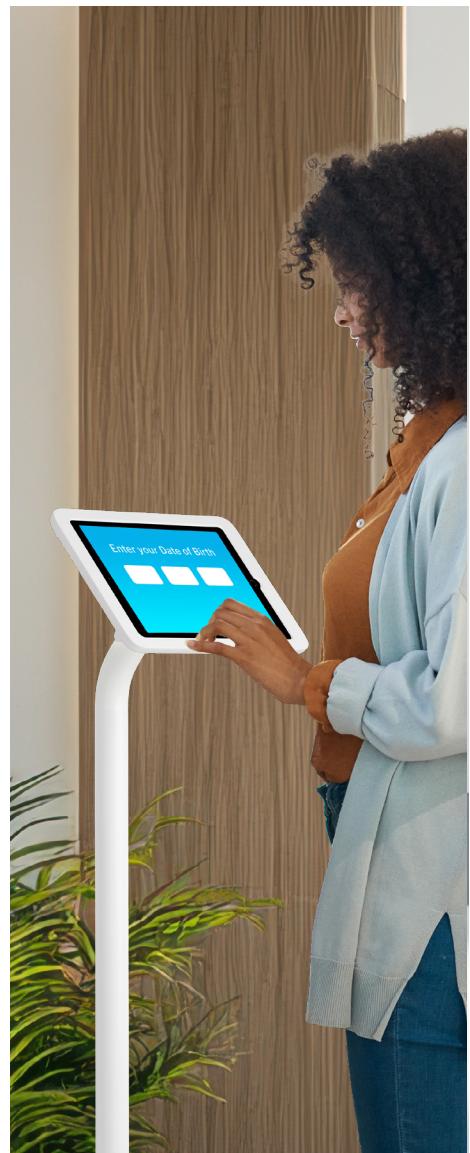

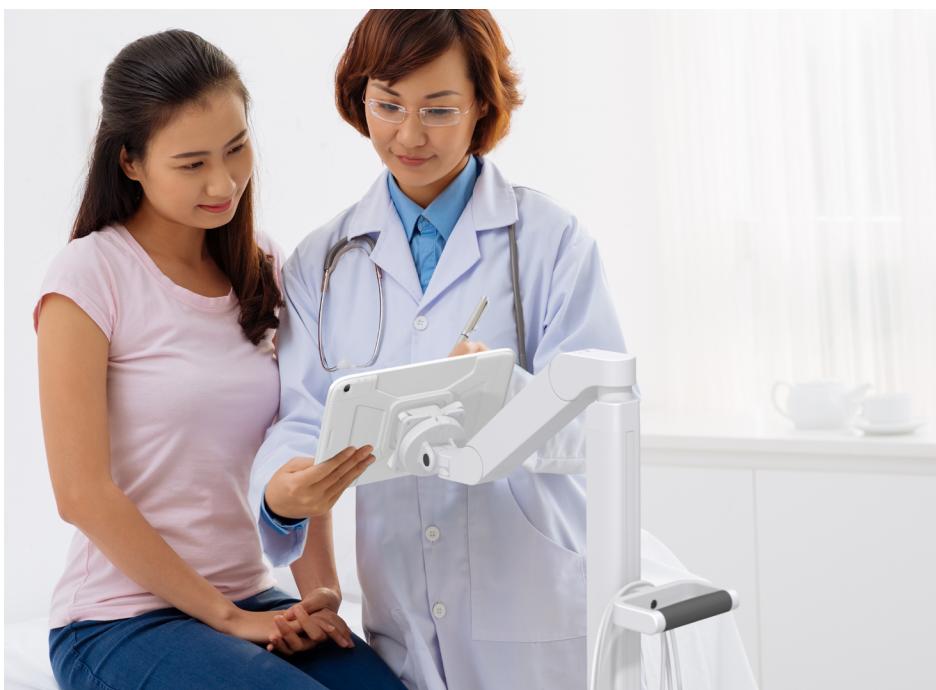

Kiosk Management System (KMS)

Remotely track and manage every tablet, enterprise-wide

- Track by tablet, user and user group across your entire enterprise
- Monitor and tablet location, current user, charge status, dock/undock status and more
- Geofence tablets for alerts when tablets leave a specific area or property
- Upload data and custom configurations for each new patient
- Remotely wipe tablets (digital sterilization) between patients via JAMF integration
- Includes a Secure Browser and cloud dashboard
- Develop and deploy custom apps using standard web development practices (no iOS development needed)

For iOS only. Call your GCX representative for more information or a demo.
